

## Specification

Product Name: Mobile RF shielded chamber.  
Product Model: NTD NSBR 06

## Product introduction

NTD NSBR 06 is a mobile, versatile small rf shielded room which is an ideal solution for all type of lab environments.

The NTD NSBR 06 is an ideal solution for antenna testing/development and can also be used for building modules and is an ideal terminal test solution platform suitable for smart phones, WI-FI, Bluetooth, smart grid equipment, automotive electronics, drones, smart home, and other fields.

## Technical specification

Operating range frequency (GHz)	0.8~6GHz
Isolation/Shielding effectiveness	≥70dB
Internal reflection attenuation	>17dB
Power, RF, Media Interface	VGA, DB9, DB25, USB2.0, USB3.0, SMA, RJ45, BNC, RCA, DC, AC are optional
Other Power: RF filters	Customer specific population
Working temperature (°C)	0 – 50
Inside Dimensions (mm)	610mm(W) x 550mm(D) x 660 mm (H) (W x D X H)
